BULLET-RESISTANT SYSTEMS · STEEL DOORS

# Metal bullet-resistant doors

Ballistic protection in a predominantly solid steel door configuration.

Steel doors with a ballistic core that stop firearm attack while looking like an ordinary door. Lock, hinge and closer zones are reinforced, and the door is tested as a complete assembly with its frame.

| TESTED TO | ALSO TO | STEEL SKINS | LEAVES |
|---|---|---|---|
| EN 1522 | UL 752 | 2 mm min | 1 or 2 |
| With EN 1523 and EN 1063 | And NIJ 0108.01 | Galvanised or stainless | Single or double |

## Benefits

- **Hidden protection.** Looks like a conventional door.
- **Tested as a complete door.** Leaf, frame and hardware.
- **Core matched to the threat.** Multi-laminate ballistic core.
- **Reinforced where it matters.** Lock, hinge and closer zones.
- **Vision panel option.** Ballistic glazing to match.
- **Works with access control.** Security hardware preparation.

## Options

Single or double leaf · Ballistic vision panel · Stainless steel · Access control · RAL colour

## Technical data

| ITEM | SPECIFICATION |
|---|---|
| Construction | Seamless steel sandwich, pressed |
| Tested to | EN 1522 · EN 1523 · EN 1063 |
| Also to | UL 752 · NIJ 0108.01 |
| Core | Multi-laminate ballistic core, matched to threat |
| Skins | Galvanised or stainless steel, 2 mm minimum |
| Frame | Reinforced heavy-duty frame |
| Configuration | Single or double leaf |
| Vision panel | Ballistic glazing option |
| Hardware | Security hardware preparation |
| Finish | Epoxy or polyester powder coat, RAL |

## Where it is used

Government buildings · Embassies · Military facilities · Airports · Security rooms · Cash rooms · Control centres · Police stations · Banks · Guard houses · Oil and gas sites · Safe rooms · Data centres · Courts

**Confirm the complete configuration.** Ratings apply to the tested assembly and its permitted sizes. Confirm the complete configuration with our team before specification or ordering.
