SPECIALIST PRODUCTS · SECURITY DOORS

Security entrance doors

Controlled access without treating the entrance as an isolated product.

For entrances that need more than a standard door. A reinforced steel door controls who comes in and resists forced entry, with ballistic protection built in where the threat requires it.

PROTECTION	LEAVES	TYPE	CONTROL
Forced entry	1 or 2	Hinged	Integrated
Ballistic option	Single or double	Or sliding	Access control and BMS

Benefits

- **Controlled, hardened access.** Reinforced leaf and frame.
- **Ballistic option.** To recognised standards.
- **Links to building systems.** Access control and BMS.
- **Automation options.** Hinged or sliding operation.
- **Vision panels.** Security glazing to match.
- **Heavy-gauge construction.** Multi-point locking.

Options

Single or double leaf · Hinged or sliding · Ballistic core · Vision panel · Door automation

Technical data

ITEM	SPECIFICATION
Type	Main entrance security door
Protection	Forced-entry resistant; ballistic option
Construction	Reinforced steel leaf and frame
Leaf	Heavy-gauge sandwich construction
Locking	Multi-point locking
Reinforcement	Lock, hinge and closer zones
Configuration	Single or double leaf, hinged or sliding
Glazing	Optional vision panel, ballistic option
Integration	Access control, BMS, automation

Where it is used

Government and ministry buildings · Embassies and consulates · Defence and military facilities · Police and security buildings · Banks and cash centres · Data centres · Airports and ports · Oil and gas sites · Power plants and substations · Hospitals · Corporate campuses · Critical infrastructure

Confirm the complete configuration. Performance, sizes and options are confirmed for each project. Send us the specification and drawings and we will confirm the proposed product and its supporting documents.

Send us your drawings and specification.
