SPECIALIST PRODUCTS · SECURITY DOORS

Forced-entry-resistant doors

Reinforced door assemblies for locations requiring resistance to deliberate physical attack.

A reinforced steel door that resists determined, tool-assisted forced entry, including power tools. Double steel skins, a reinforced frame and hinges, dog bolts and anti-tear protection keep it shut.

EUROPEAN CLASS	AMERICAN GRADE	SKINS	LOCKING
RC6	Grade 40	2 × 2 mm	Multipoint
EN 1627, highest class	ASTM F476, highest grade	Double steel skins	With dog bolts

Benefits

- **Highest burglary rating.** RC6 and Grade 40.
- **Resists power tools.** Including angle grinders.
- **Long resistance time.** At the top classes.
- **Concealed reinforcement.** Looks like a normal door.
- **Anti-tear protection.** Reinforced hinges and dog bolts.
- **Works with access control.** Security hardware preparation.

Options

Single or double leaf · Access control · Vision panel · Fire rating option · RAL colour
