ARCHITECTURAL GLAZING · ALUMINIUM AND STEEL

Architectural aluminium and steel windows and doors

Openings that work with the building's appearance and everyday use.

Aluminium and steel windows and doors selected around the building's design intent. We agree the system, glazing, hardware and finish with the design team, then manufacture and install the package in Qatar.

STEEL SYSTEM	ALUMINIUM	DOOR TYPES	FINISH
presto xs	MB-79N	Pivot · hinged	RAL
Forster, filigree steel	Aluprof, thermally broken	Single or double leaf	Powder coat or anodised

Benefits

- **Designed around the elevation.** Sightlines, colour and hardware to suit the design.
- **Thermally broken aluminium.** Insulated profiles for the Gulf climate.
- **Filigree steel profiles.** Forster presto xs for extremely narrow face widths.
- **Flush or recessed doors.** Revolving or pivot doors with fixed glazing.
- **Matches our rated openings.** Same look as fire and security doors and windows.
- **Manufactured in Qatar.** Fabricated and finished in Doha.

Options

Barrier-free threshold · Panic function · Self-closing · Smoke control · Sound insulation · Fire protection on request · RAL or anodised

Technical data

ITEM	SPECIFICATION
Aluminium systems	Aluprof, including MB-79N thermally broken windows and doors
Steel systems	Forster presto xs, 100% steel, uninsulated, for interiors
Configuration	Windows, doors and glazed screens
Steel doors	Single and double-leaf revolving or pivot doors, flush or recessed
Glazing	Double-glazed, laminated or solar-control units
Performance	Air, water and wind classes confirmed per project
Hardware	Handles, hinges, locks and closers to suit use
Anchorage	To concrete, blockwork or steel, per project
Finish	Polyester powder coat, PVDF or anodised
Test evidence	System manufacturer data, on request

Where it is used

Offices and headquarters · Hotels and residences · Villas and private projects · Schools and universities · Hospitals and clinics · Retail and malls · Government buildings · Airports and transport · Industrial and site buildings

Confirm the complete configuration. Performance, sizes and options are confirmed for each project. Send us the specification and drawings and we will confirm the proposed product and its supporting documents.

Send us your drawings and specification.
